NEW

MATRIX 2.0

M A S T E R P I E C E

As passionate dog owners, we love working on details. The new Matrix 2.0 is the perfect symbiosis:

TECHNOLOGY

We evolved the Gotcha! tag, integrating it not only into our collars but also, as an industry-first, into our harnesses.

Our unique app allows finders to scan the tag and reunite the dog with its owner.

SAFETY & FUNCTIONALITY

We prioritize easy-to-use, yet solid and well-crafted buckles & carabiners.

Reflective seams enhance visibility at night.

Extra D-rings provide versatility for leash adjustment & accessory attachment.

COMFORT

We believe in Neoprene, combining it with Polyester for comfort & safety.

No sharp edges, super-soft padding, and quick-drying, antibacterial materials are our minimum requirements.

DESIGN

Matrix 2.0 showcases our passion for design with distinctive features like debossed polyester webbing and tone-in-tone color combinations.

Tailored applications and matte metal parts exemplify our commitment to craftsmanship.

Questions & answers

- WHY USE SOUNDSHIELD™?

Parasites like ticks & fleas endanger your pet's health by causing infections and spreading diseases like Ehrlichiosis or Lyme disease (Borreliose). Some of them can be dangerous for humans as well. To protect your cat and dog is therefore essential in order to keep them safe and healthy.

- HOW DOES IT WORK?

Soundshield™ is 100% Chemical-free! This repeller uses the latest advanced technology that emits intense ultrasonic waves within a 1.5m radius at high-level frequencies to constantly deter ticks and fleas. Soundshield™ is 100% safe and inaudible to both humans and pets. Tested and proven effective for up to eight months of continuous coverage. Soundshield™ is waterproof.

- WHO IS IT SUITED FOR?

Because it is 100% free of chemicals Soundshield™ can be used for dogs of ALL ages, even puppies, older and sick dogs or pregnant dogs. Please note Soundshield™ is intended for use as a pest preventative and will not eliminate pests on an infested pet. Soundshield™ is designed for pets living in homes with their humans. It is not suitable for dogs that are either already heavily infested with parasites or live in an environment where they are confronted with a high population of ticks & fleas constantly.
